

Diego Eduardo Lara Garcia

Technology Student | Backend Developer

☎ +52 81 8161 3659 | ✉ me@delg.dev | 🌐 delg.dev

Professional Profile

Technology student with hands-on experience in backend development (Node.js, Go), DevOps, and web development. I build my own AI projects (DELG-Code, DELG Chat, DELGMark) to explore and apply artificial intelligence tools in practice. Looking for an opportunity to apply my skills in building efficient, scalable, high-impact software solutions.

Experience

Airport Volunteer Host City Management - FIFA World Cup 2026 Monterrey

- Assisted fans, media, teams, and other international visitors at the Monterrey airport during the 2026 World Cup, providing guidance and logistical support.

Founder / Developer DELG Software 05/2026 - Present

- Develop my own software and hardware (DELG-Code, DELG Chat, DELGMark) as well as freelance projects for external clients. [delg.dev](#)

Technical Support Agent Banorte 02/2023 - 07/2023

- Efficiently resolved an average of 15+ daily technical incidents for corporate clients, minimizing downtime and ensuring business continuity.
- Diagnosed complex software and network issues, documenting solutions in the knowledge base, which helped reduce resolution time for recurring team issues.

Featured Projects

P1 **DELG-Code**

- AI developer in the browser for fully in-browser AI-assisted coding. [DELG-Code](#)

P2 **DELG Chat**

- AI chat with support for multiple LLMs. [DELG Chat](#)

P3 **DELGMark**

- Benchmark for evaluating and comparing the performance of different LLMs. [DELGMark](#)

P4 **NoRedstone**

- Java plugin (Paper/Spigot) for wirelessly transmitting redstone signals via signs. [NoRedstone](#)

Certifications and Awards

LFW111: Introduction to Node.js, The Linux Foundation 2024

2nd Place, UANL Preparatoria 16 Robotics Competition 2019

Education

Universidad Autónoma de Nuevo León (FACPYA - UANL) San Nicolás de los Garza, N. L.

B.S. in Information Technology 07/2024 - Present (*Expected graduation: December 2028*)

Skills

Languages: JavaScript, Java, Python, Go, SQL

Backend, Frameworks & Databases: Node.js, Bun, Vue.js, MongoDB, PostgreSQL

DevOps, Cloud & AI: Linux, Docker, AWS, GCP, Digital Ocean, S3, Git, CI/CD, Claude Code, Codex, Cursor

Languages Spoken: Spanish (Native), English (Advanced - C1)
